The ADA assigned to the homicide division, a skilled prosecutor who works closely with Jack and Maya to build cases against the suspects they bring in. She is tough but fair and values justice above all else.

## PRODUCT PHOTOS SINGLE COLOR SETTING

Highlight your products online with the perfect backdrop. Opt for a clean, white background coupled with proper lighting, a reliable camera, and a sturdy tripod to draw attention to your product's features without distractions. This approach preserves the true colors and allows customers to focus on what matters. For glass items like perfumes and beverages, try a sleek black background to enhance packaging. Avoid busy backgrounds that can distort colors or divert attention. Let your products shine with the right backdrop and create captivating images that leave a lasting impression.

# PRODUCT PHOTOS STUDIO STYLING & STAGING

As a photographer, I understand the importance of capturing products authentically. When styling, I focus on arranging props in a natural way to avoid a staged look. By layering and stacking props, we add depth and intrigue. Placing some props at the frame's edge creates a sense of mystery, enticing viewers to explore beyond. Let's collaborate to create compelling product images that captivate your audience and tell a story.

# LIFESTYLE PHOTOS WITH MODELS

Lifestyle photography with models portrays real-life situations, showcasing products or apparel in relatable contexts. By featuring models who represent the target audience, it helps potential customers envision themselves using or wearing the products, fostering a connection and evoking emotions. This style of photography communicates the product's benefits and associated lifestyle, influencing purchasing decisions and creating a stronger brand appeal.
